Subject: Amendment Approval for Updated Reclamation Surety Calculations and Directive to Submit Additional Surety, Geneva Rock Products, Inc., Pelican Point Quarry, M/049/011, Utah County, Utah

Dear Mr. Sumsion:

Thank you for providing an updated reclamation cost estimate as directed in a letter dated March 30, 2015. The cost estimate now reflects the total surety required for a 217-acre permitted area. Attached is your stamped approved copy of information contained in Appendix F. Please replace this information in your copy of the Notice of Intention to Commence Large Mining Operations.

The new cost estimate is an increase of \$157,000.00 over the amount the Division currently held. Please submit the increased amount by June 1, 2015. The increase may be in the form of a rider to the existing surety bond, or you may submit a surety bond, cash, a certificate of deposit, or a letter of credit for either the increased or the full. Please contact the minerals program bonding coordinator, Penny Berry, at 801-538-5291 or by e mail at pennyberry@utah.gov if you need further information about submitting the surety.

As we discussed, an option for decreasing the amount of surety required is to bond incrementally, i.e. for those areas that would be disturbed within the next five years. If you decide to pursue this option, the Division would need a map showing which areas would be disturbed during that time period as well as information in the cost estimate showing the costs for reclaiming the reduced acreage.

Thank you for completing this important permitting action. Please contact the lead inspector, April Abate, at 801-538-5318 or me at 801-538-5261 if you have questions concerning this letter.

Sincerely,

Paul B. Baker  
Mining Program Manager
